### Voiceover and Sound

BEGIN MUSIC: (Contemporary, warm and friendly - in background)

HALEY VOICEOVER: For me, what I love most about being a real estate agent are the relationships I build with my clients. With each one I have to earn their trust. That means listening closely to their needs... recognizing that every family, whether buying or selling, has different dreams, different expectations, and it's my job to work tirelessly to help fulfill them. Nothing is more gratifying to me than a closing... because I can feel their excitement, their joy. And I get to do this over and over!

MUSIC: COMES UP DURING DISPLAY OF TITLE, THEN BACK UNDER.

HALEY: Actually, from an early age I sensed real estate might be my calling.

When I was little my mom and I would visit model homes, just for the fun of it...seeing these neat houses...asking all sorts of questions.

With a background in sales management and a love of real estate...it's a natural for me.
